The conference brought together scholars from around the world to discuss the history of the language sciences, including the history of linguistics, philology, and language teaching. The conference also featured a number

of special events, including a keynote address by Professor Emeritus Noam Chomsky of the Massachusetts Institute of Technology.

The Proceedings of the Conference

The proceedings of the conference were published in two volumes by John Benjamins Publishing Company. The first volume, "General Papers," contains papers on a wide range of topics in the history of the language sciences. The second volume, "Special Papers," contains papers on specific topics, such as the history of linguistics in Japan and the history of language teaching in China.

The Impact of the Conference

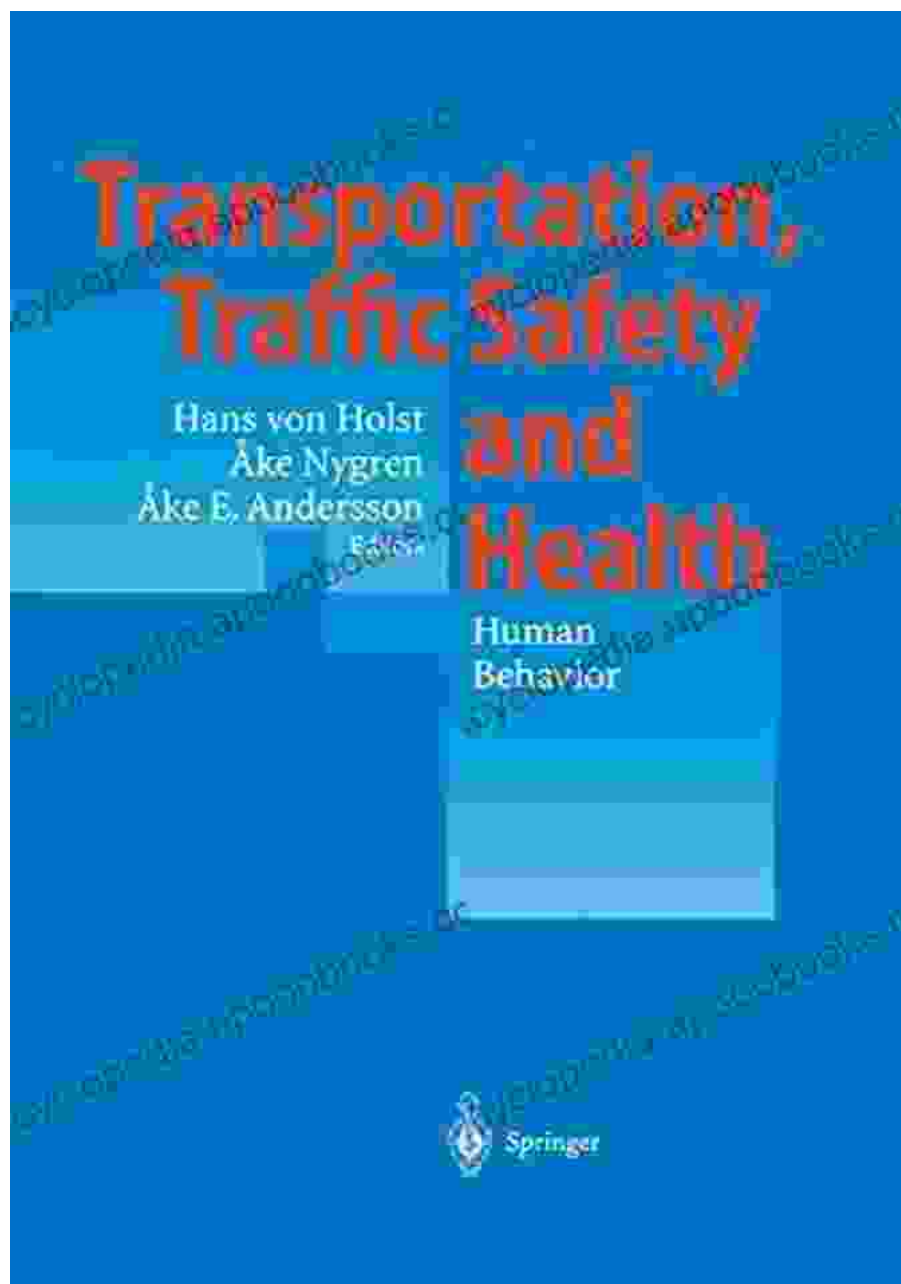

The Fourth International Conference on the History of the Language Sciences was a major event in the field. The conference brought together scholars from around the world to discuss the latest research in the history of the language sciences. The conference also helped to raise awareness of the importance of the history of the language sciences.

The Legacy of the Conference

The legacy of the Fourth International Conference on the History of the Language Sciences continues to this day. The conference helped to establish the history of the language sciences as a legitimate field of study. The conference also helped to create a community of scholars who are interested in the history of the language sciences.
